

OUR POTHOLE PLEDGE

PERMANENT

Local authorities to limit the practice of temporary pothole repairs or patches and, where possible, every pothole or patch to be repaired permanently.

PRECISE

All local authorities / contractors to adhere to UK-wide repair and inspection standards, and annually report on the repairs undertaken.

PRICE

Government to simplify highway maintenance funding and offer long term clarity to local authorities. Funding should incentivise local authorities and their contractors to invest in innovation to deliver more planned, rather than reactive repairs.

PROVISION

Central and local government to guarantee ringfencing of ALL road maintenance funding to help deliver innovations that enable permanent repairs.

PROGRESS

Full transparency from local authorities on their roads repair backlog, categorised by potholes, patching works and road resurfacing.
